<p>Our organization is in favor of a 20% firming scenario starting in 2024, and maintaining 20% firming in subsequent years.</p>	<p>NA</p>	<p>Our organization does not support any firming reductions that rely on an "incentive based" approach. The conservation efforts and portfolio management strategies of each entity are unique and it does not seem feasible to require entities to implement policies or ordinances that have not been historically required.</p>
